Arjun Dangi

Full Stack Web Developer

PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer with expertise in the MERN stack. Proactive and self-motivated with a dedication to organizational and personal growth. Strong problem-solving and communication skills, with a focus on delivering high-quality, reliable web applications.

PROJECTS

1. Travelious | |

JavaScript | React | Redux | Node.js | Express.js | MongoDB

- Built a Full Stack travel booking website using the MERN stack.
- Contributed to the creation of the home page, tour detail page, login signup page, navbar, and profile page.
- Implemented features such as User authentication, booking and canceling tours, Payment, and managing booking history.
- Independently managed all aspects of the backend.

2. Auction Website | |

JavaScript | React | Redux | Node.js | Express.js | MongoDB | Socket IO | Tailwind

- Created a comprehensive auction platform with real-time bidding updates and automated auction closures using the MERN stack.
- Implemented features for users to login, sign up, sell products, purchase products, and place bids.
- Utilized Socket IO for real-time updates and cron-job for automated auction closures
- Managed all aspects of the project independently

3. Instagram Clone | |

TypeScript | React | Redux | Node.js | Express.js | MongoDB | Chakra UI

- Developed a fully-featured Instagram clone using the MERN stack
- Contributed to the profile page, follow, and Unfollow functionality, implementation of post routes, and follower routes in the backend.
- The project has features such as login/signup, creating posts, messaging, following users, commenting, and like
- Utilized Socket.IO for real-time messaging and updates.

4. Medium Clone | |

JavaScript | React | Redux | Node.js | Express.js | MongoDB | Tailwind

- Developed a blog application - Medium Clone using the MERN stack.
- Implemented features like login & signup, Following and unfollowing Users, Commenting and Liking on blogs, creating, updating, and deleting blogs, and updating profiles.
- Managed all aspects of the project independently
